

Every Country that has followed Socialism has failed: Soviet Union, Communist China, Cuba, Venezuela, North Korea, Nicaragua

Socialism IS Government Control

Here is What to Expect:

Immediate Confiscation of all firearms

Abolishment of Electoral College

Majority of States - No input in election of President

No political parties - one socialist party rule

Free markets abandoned

No consumer protection laws - no choices in what to buy

Government keeps list of political enemies for retribution

Lack of freedom and opportunity

Capitalism outlawed - making a profit is illegal

Govt outlaws by fiat any behaviors they don't like

Heavy Regulation - No private property

Government take-over of certain industries

All businesses ordered to obey government dictates

Govt encourages resentment & jealousy of achievers

No upward mobility - No way to better yourself

Improving the human condition - not a goal of Socialism

Redistribution of private money to Govt supporters

No checks and balances in branches of government

Achievers not rewarded - Merit ignored

Access gained through bribes, favoritism - not skill

Need Govt approval for all actions private/personal
Marketplace no longer determines successful ideas
Bureaucrats and unelected rulers control the culture
Freedom of Speech not allowed in Socialist system
Courts rubberstamp all Govt decisions
Media controlled by Govt - No free press
No guaranteed rights - No Rule of Law Protections
Regulation of Production - Govt Decides what to Produce
....produces many products public doesn't want or need
Government will decide what public needs
Socialism: Cultivates dependency - Kills ambition
Rulers become permanent - no free elections
Citizens unprotected from unconstitutional laws
Open Borders = more supporters of socialist rulers
Huge Tax Increases on all taxpayers
Human rights violations
Massive confiscation of wealth
Certain religions targeted and harassed
Socialist control is permanent - no going back
Encourages resentment of other's achievements
Technology stalled - no reward for success
No personal freedom or right of consent
No State's rights - all power in Central government
No competition means end of innovation
10 Protections from Bill of Rights - null and void!

Govt resorts to compulsion, political re-education,
....eventually torture, prison and exile for dissenters
Leaders have their own rules & privileges
Socialism always promises Utopia ... "free" everything
Big promises of massive new benefits, with no new taxes!
Citizens have no money left for anything but government
....little disposable income
Most everything is taken in taxes for the greater good
Control by "the people" is control by "government"
....Socialists say "people" when they mean "government"
93 Trillion - \$600K per family for Green New Deal+Freebies
"Universal Income" produces fewer and fewer workers
....until the economy collapses
Price and Currency controls, rationing of goods
Loss of freedom, rights and personal income
Collapse of GDP by 40% in near term =
40% less money earned = 40% less taxes paid= shortfall
....rich paying 90% so Middle Class must cover shortfall
Rationing of healthcare to cut costs
....becomes war on the elderly - an expendable group
Private health insurance illegal
Socialists try to appear cool, hip and with-it to attract
....younger voters, but ultimately offer misery and tyranny
Democracy is under assault if Socialism takes America
